TERRITORY

STRENGTHENING DISASTER RESPONSE CAPACITIES THROUGH DRONE TECHNOLOGY

TERRITORY - Strengthening Disaster Response Capacities Through Drone Technology - is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

**Duration**

start date - end date

01.07.2025 - 31.12.2027

Main Goal

TERRITORY aims to tackle increasing disaster risks in the South Adriatic region, such as floods, wildfires, and coastal pollution, by implementing drone-based AI solutions for real-time monitoring and response.

**Total budget**

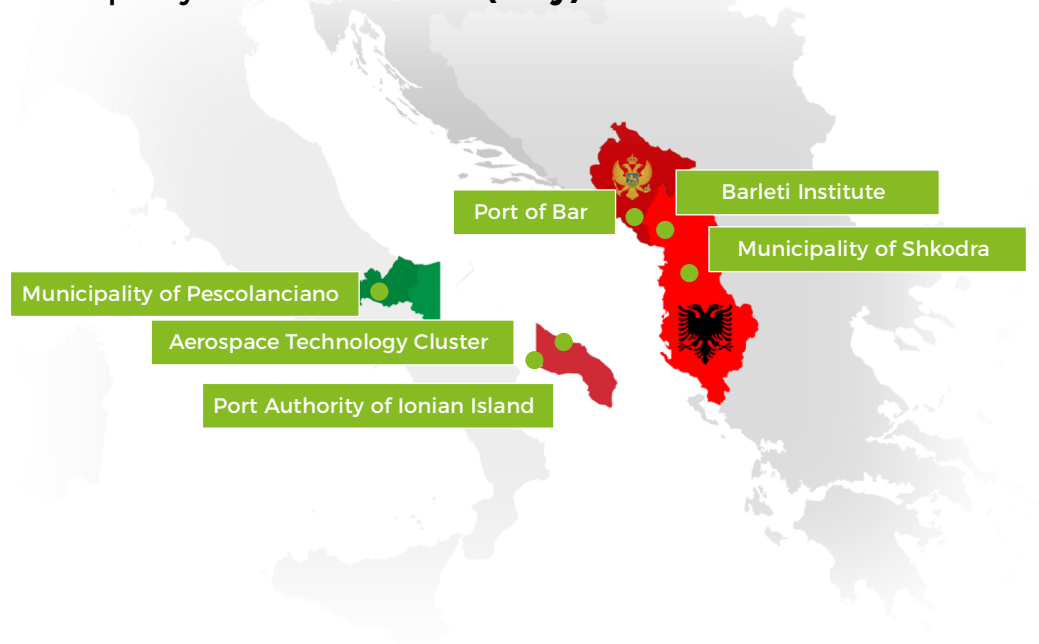

1.074.804 €

**EU funding**

885.322 €

Project Partners

- **Lead Partner** - Aerospace Technology Cluster (**Italy**)
- **Partner** - Barleti Institute For Research And Development (**Albania**)
- **Partner** - Port of Bar (**Montenegro**)
- **Partner** - Municipality of Shkodra (**Albania**)
- **Partner** - Port Network Authority of The Ionian Sea (**Italy**)
- **Partner** - Municipality of Pescolanciano (**Italy**)

Project main activities -Expected output/results

The project will deliver a joint action plan for integrating drone-based UAS and AI solutions into disaster management strategies, and a fully operational prototype system for environmental risk prevention. Results include enhanced disaster preparedness, faster responses, and improved cross-border collaboration, driven by all partners.
